Downloading and Accessing Zoom

Centennial School teachers will begin to offer optional Zoom sessions to connect with students. Zoom is a video conferencing app which will allow students to meet virtually with their class.

While you may need to download and install a Zoom app on your device, there is no need for students to sign up for a Zoom account. Students will be able to join Centennial School's Zoom sessions without signing in to an account.

There is also an audio only option (no video) for students to connect to the Zoom meeting over the telephone. This can be an option if students would like to connect with the class but do not have a device with video capability, have Internet bandwidth issues, or video privacy concerns.
