March 16, 2020

Dear Centennial Parents and Guardians,

I want to thank you for your patience and support as we navigate a response to Governor Wolf's order to close schools from March 16th through March 27th. The health and safety of our students and staff is our top priority. Our administrative team is working with teachers to create distance learning opportunities to help students maintain the skills they've learned throughout the year.

Distance Learning

Distance learning opportunities will begin on Monday, March 23rd. These opportunities are strongly recommended; they are not required. The purpose of these assignments is to increase structure and minimize academic regression. It is our hope that with this increased predictability and consistency your children will experience greater behavioral success and independence. Each morning, your child's case manager will email your child a document with their work for the day. We encourage you to state clear expectations for using technology and maintain high levels of supervision.

How can my child access their school email account?

- To access the Centennial School Google account, please have your child go to <https://gmail.com>
- Type in his/her full Centennial School Google account information. (ex: aaaa99@centennialschoolpa.org)

My child has a question about an assignment. Who can we contact for assistance?

- In the document your child's case manager emails each morning, the email address for the teacher is listed to the left of the assignments. Your child can send an email directly to that teacher for assistance.

Medication

- If your child has medication at Centennial School that is needed, please contact Julie Fogt at 610-266-6500 or juf2@lehigh.edu to make arrangements to pick up the medication.

Continued Communication

- Your child's teacher will continue to communicate with you weekly as a way to check-in. Please communicate your questions or concerns as we are here to support your child's academics and behavior in this distance learning environment.

Remind

- We will rely on our alert system, Remind, to provide updates in the coming weeks. If you are not already signed up, please text the message @centschool to the number 81010. If you are having trouble with 81010, try texting @centschool to 484-935-3957.

Food & Nutrition Sources

Many school districts are offering meals for students within the district. Please see the links below for more information. We encourage you to visit your home school district website for additional resources.

- [Morning Call article with links to Lehigh Valley Schools](#)
- Dial your state or local 2-1-1 to request information regarding food sources or visit <http://www.211.org/>

We will continue to monitor developments and guidance from the CDC and our state and local departments of health closely and update you as new information becomes available.

Thank you for your patience, understanding, and efforts to help us stay healthy.

Julie B. Fogt
